ANALYSIS OF PRIVATE SECURITY

## DECEMBER SEASON AND HOW TO HAVE SAFE HOLIDAYS

This month is the ideal time to rest, travel with the family, and enjoy the holiday season. But when you travel, we must take into account certain precautions to prevent our home from being a victim of theft while we are away.

### Public risk:

Home burglary is one of the most reported crimes, mainly during the vacation period at the end and beginning of the year. Criminals use different modalities such as human ladders, trying different keys and misleading calls to steal belongings from homes. According to the *Secretaría de Seguridad de Bogotá*, about 200 houses are robbed under different modalities in the country's capital.

## RECOMMENDATIONS FOR THE HOLIDAY SEASON AND HOW TO HAVE A SAFE VACATION

Check the condition of the locks.

Turn off the power and water supply.

Do not tell strangers about your travel plans, or post on your social networks where you are or how long you will be away.

Disconnect the electrical appliances.

Verify that windows are well closed and protect terraces or places that the offender can use as access to your home.

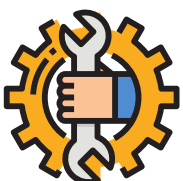

Keep your valuables well guarded.

Do not wear any jewelry or luxury items that attract attention.

Don't leave lighted candles, candleholders or incense burners.

Perform preventive mechanical maintenance of the vehicle.

Respect traffic rules and traffic signals.
