PRIVATE SECURITY ANALYSIS

ATTENTION! SUSPICIOUS PACKAGE

The use of packages or abandoned luggage is a recurrent tactic employed by organized armed groups to perpetrate attacks.

It is important to be alert to the presence of suspicious packages or luggage in unusual places, such as in the middle of a road or in building corridors, as they may be camouflaged to go unnoticed and be activated remotely or automatically when moved or touched.

A vigilant attitude should be maintained and any suspicious situation should be reported immediately to the competent authorities.

ATTENTION TO:

They are usually located in crowded areas such as shopping malls, commercial areas or near military infrastructure, with the intention of causing as much damage as possible.

They can be camouflaged to go unnoticed and be activated remotely or automatically when moved or touched.

Another modality that has been presented is the sending of packages armed with bombs or some toxic agent to cause harm to the recipient.

REMEMBER:
Timely detection of these devices is essential to preserve safety and avoid tragic consequences.

RECOMMENDATIONS

PLEASE NOTE THE FOLLOWING SECURITY CLUES AND RECOMMENDATIONS IN THE PRESENCE OF A SUSPICIOUS PACKAGE

- Misspelled or misspelled words
 - Photos or too many marks on the packaging
 - Oil, dust and other stains
 - Sloppy packaging
 - Sounds, smells or vibrations
 - Incorrect or generic addresses
 - Lumpy appearance
 - Unbalanced or uneven packaging
 - Protruding wires
- Aware of your surroundings, identify people who may be following you or who you consider suspicious.

- ✓ **Abandoned packages:** Abandoned packages can be an indicator of a possible terrorist attack. If a package is found in a public place, especially if it is of considerable weight, contact the authorities, describe the package and where it was left.
- ✓ **Provenance:** If the package has a suspicious provenance or a shipment is not expected, notify the authorities.
- ✓ **Move away from the place:** Move away as soon as possible from the place where the package was found to avoid any possible risk.
- ✓ **Alert others:** Warn other citizens not to approach the site to avoid any possible risk.
