PRIVATE SECURITY ANALYSIS

MILLIONAIRE TOUR

According to the Penal Code, the "millionaire tour" is a form of extortive kidnapping. In this type of kidnapping, criminals approach their victims, generally when they are looking for public or private transportation on the street, and deprive them of their freedom for a few minutes or hours, with the aim of emptying their bank accounts and robbing them of their belongings.

Once in the vehicle, the criminals generate fear in the victim through threats, intimidation, violence and even resorting to the use of narcotic substances to avoid resistance. Meanwhile, the criminals go to various ATMs and areas of the city to carry out transactions with the victim's cards and information.

Usually, once the crime is over, the criminals leave the victim in a distant and uncrowded part of the city.

ATTENTION TO:

90% of the millionaire tours occur in the morning hours (between 12:00 and 4:00 am).

The millionaire ride ranges from 45 minutes to one hour, on average, per case.

Wednesdays, Fridays and Saturdays are the days with the highest occurrence of this crime.
